We are pleased to release the April - June 2023 issue of Workforce, the official newsletter of the Sarawak Skills Development Centre. It features updates on events and happenings in Sarawak Skills.

Sarawak Skills Group of Learning Institutions (Sarawak Skills), we have long realized that in today's ever-changing and challenging global environment, it is important for us, to remain true

to our mission, i.e. to provide technical-based education and training through the use of content-based and technological-centric solutions resulting in competent workforce development.

Yes, we are living in a time of dynamic change – the unexpected twists and turns have become the norm. In this respect, we have tapped our wellsprings of creativity, innovation and perseverance to fly the flag of excellence on all fronts. For example, to support our group-wide digital transformation initiatives, we have used data analytics (various techniques and tools) to transform our wealth of raw data into actionable insights. This has facilitated the crafting of fresh strategies for the benefit of current and future generations of students and trainees.

There were many highlights during the second quarter of 2023 – Sarawak Skills was a hive of activity! On 15 June 2023, the BrandLaureate SMEs BestBrands Award 2023 in the category of "Best Choice - Education: Technical Skills Excellence" was bestowed on i-CATS University College (i-CATS UC). This is an affirmation of i-CATS UC's contributions to Global Talent Development. I am also pleased to share that students and trainees across the Sarawak Skills Group are highly sought-after by the various industries. In this volume of the newsletter, we share on the impressive employability rate (97 percent) of the Sarawak Agriculture Vocational Training Institute (SAVTI), part of the Sarawak Skills Group.

The continued support of our stakeholders comprising the government, various sectors of industry, parents, alumni, students and staff members are of utmost importance as we progress along our voyage as a stakeholder in the transformation of Sarawak's digital, economic and educational landscape. In this respect, we take great pleasure in sharing various activities/events, including an Industry Bonding Session in May 2023, signing of Memoranda of Understanding (MoUs) with various institutions and organizations, and Corporate Social Responsibility (CSR) activities.

HALLMAN SABRI

Executive Director
Sarawak Skills Development Centre

With the support of the Sarawak Government, the Sarawak Skills Group will be setting up a dedicated Advanced Automotive and Mobility Technology College (AAMTC) in Kuching. In a nutshell, this will be a Certified Training Centre for Hybrid Electric Vehicles (HEVs), Electric Vehicles (EVs) and Hydrogen Fuel Cell Vehicles.

Indeed, we are grateful for the opportunity to contribute actively to the transformation of Sarawak's six key economic sectors (main engines of growth) in line with the Sarawak Post Covid-19 Development Strategy 2030 (PCDS 2030).
